

FB4 & FC4 FAN COILS

MAXIMIZE COMFORT AND EFFICIENCY WITH A MATCHED CARRIER FAN COIL

CARRIER FAN COILS COMPLEMENT YOUR INDOOR WEATHER SYSTEM.

SUPERIOR COMFORT

Carrier's FB4 and FC4 Fan Coils maximize performance of your indoor weather system.

These fan coils are designed to perfectly match your Carrier heat pump or air conditioner, ensuring the comfort and performance you expect. In addition, you can enjoy exceptional indoor air quality because both of these models are equipped with a fully drainable pan and heavy-duty insulation enhanced with a foil liner.

ECONOMY

Carrier helps you conserve energy by offering your choice of two high-efficiency models.

The FC4 features a thermostatic expansion valve (TXV), a metering device for precision refrigerant usage and enhanced heating and cooling control. The FB4 utilizes our AccuRater® for refrigerant metering that is matched with your outdoor unit to ensure economical operation.

VERSATILITY

Because your home is unique, Carrier offers versatile fan coils to fit just about anywhere.

Equipped with our three-speed blower, both models adjust to suit the airflow needs of your home. One or two-piece designs allow installation even in areas where space is limited. Your Indoor Weather Expert, your Carrier Dealer, will help you select the coil that's best in your application, so you'll enjoy years of custom made indoor weather from Carrier.

BENEFITS & FEATURES

- 1 Quiet comfort** for you and your family is one of the benefits of our foil-faced insulation. This insulation also inhibits bacterial growth and is easy to clean for enhanced indoor air quality.
- 2 Warm, winter comfort** with optional electric resistance heat allows you to enjoy the comfort of your home even on the coldest days.
- 3 Extra efficiency** translates into money savings, thanks to details like our rifled copper tubing and louvered fins. These subtle design elements maximize the performance of the fan coil.
- 4 Efficient performance of the FB4** is provided by the AccuRater, custom matched to your outdoor unit for precise refrigerant metering.
- 5 Enhanced drain pan** is contoured for superior drainage of condensate. This drain pan improves indoor air quality by reducing the chances of mold, mildew and corrosion.

Thermostatic expansion valve minimizes operating costs and maximizes performance of the FC4 with its precision refrigerant metering.

FB4 Fan Coil

WARRANTY

You can enjoy your indoor weather without worrying about your system because Carrier backs all of its products with written warranties. The FB4 and FC4 fans coils are protected by a **one-year limited warranty**. Ask your Indoor Weather Expert for details on our extended warranties.
